

The Eagle Has Landed

Years ago mankind realized their dream
And our eagle was very much a part of the theme.
Like the birds of the sky, we got a good view
And we saw many good things that people can do.

If only the chickens and turkeys would learn to fly
Up toward heaven and into the sky.
They wouldn't be afraid to fall down
Or listen to "I can't," it's all around.

As an Optimist leader, we know the score
And like that eagle, we need to soar.
It's against apathy that we must fight
To try over and over, 'til we get it right.

With our talents and hopes we will inspire
Those hands that help kids, and take them higher!
We must find a way to do something new
And still hold on to the things that ring true.

And now like the eagle, it's our turn to lead.
Be a good example, do a good deed.
Try to make a difference, try and be smart
And see THE EAGLE HAS
LANDED, inside your heart!

Randy Shouse • 2009-2010 Governor
Arizona District
